

EXHIBIT 3

This letter is in reference to Kevin Henderson.

Kevin has been apart of my family life from his teenage years. My sister and I have welcomed him into our homes as a relative, have loved him like a nephew. There is anything I would do for Kevin. Kevin has had a troubled past due to his biological parents abandoning him.

I personally ask the judge or any decision maker on his case to have leniency on his Sentencing. I also ask that he be mandated to further his education and some personal Counseling for his past problems. Through education I personally feel he will have a better chance of making a better life in Society. Through Counseling I feel he will

become a much better person mentally.
I love Kevin, would like him to, ~~succeed~~
in his future life.

I thank you in advance on your decision
of leniency towards his future.
